

Kodiak® Composite Deck and Rail by Deceuninck® North America

Advanced research and engineering meet style and craftsmanship when you install a Kodiak composite decking system from Deceuninck North America.

Not only do you take advantage of scientifically-engineered composites that are color consistent and industry compliant, you take pride in knowing that Kodiak delivers the most realistically-styled and textured composite decking with the longest-lasting color retention in the industry.

...An Extension of Your Home

BENEFITS

Our nearly 40 years of building products history—combined with our responsible manufacturing technologies that incorporate renewable, plant-based additives, reduce energy consumption and increase material recycling and repurposing—provide you with a unique home extension with lasting lifestyle.

Contractor and Homeowner Benefits

- 30-year limited warranty from Deceuninck – a trusted leader in building products
- Solid, non-porous boards that resist rot, splintering, cupping and checking
- The most realistic wood-appearance in the industry
- Fully-dispersed, popular colors
- Eco-friendly manufacturing and packaging
- Never needs staining or painting
- Easy to install, “built-in, hidden fastening system”
- Looks and feels better than other common composite products
- Easy to router and shape for custom designs
- Meets ICC (International Code Council) standards ESR-1425

QUALITY

Kodiak composite is a perfect blend of wood fiber, organic-based pigments and high-density polyethylene (HDPE). Our advanced technology consistently encapsulates a precisely-engineered mix of materials to allow the decking to exhibit the natural characteristics of wood without the major drawbacks, and to maintain the highest levels of color retention in the industry.

Kodiak Composite Deck and Rail

- **Superior Strength** – Kodiak materials are scientifically engineered to be the most durable and longest lasting deck product available.
- **Superior Resistance** – Because Kodiak decking is less porous, there's virtually no room for destructive dirt, mold and mildew.
- **Superior Finish** – By using furniture-grade wood flour that minimizes the tannin, chips and flakes of other composites, we achieve a smooth, beautiful finish that is unmatched in the industry.
- **Superior Workability** – As with fine-quality wood, Kodiak decking can be customized to your liking using a router and other common wood-working tools.

Colors*

CAROLINA PINE

PACIFIC REDWOOD

NEW ENGLAND GREY

TEAK

*All colors are mechanically reproduced. They may vary from the actual product. Please refer to the actual product sample for true sample representation.

Product Specifications

5/4x6 Deck Plank (16" OC)
Nominal Width: 6"
Nominal Thickness: 5/4"

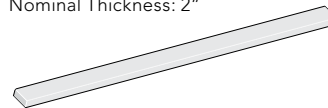

CD54X12
Length: 12'
3,025 Lbs./Bundle
96 Pcs./Bundle

CD54X16
Length: 16'
4,000 Lbs./Bundle
96 Pcs./Bundle

CD54X20
Length: 20'
4,560 Lbs./Bundle
88 Pcs./Bundle

2x6 Deck Plank (24" OC)
Nominal Width: 6"
Nominal Thickness: 2"

CD2X6X12
Length: 12'
3,225 Lbs./Bundle
64 Pcs./Bundle

CD2X6X16
Length: 16'
4,300 Lbs./Bundle
64 Pcs./Bundle

2x2 Baluster
Nominal Width: 2"
Nominal Thickness: 2"

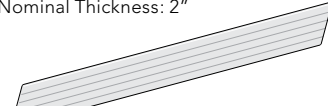

CR2X236
Length: 36"
262 Lbs./Bundle
80 Pcs./Bundle

CR2X242
Length: 42"
305 Lbs./Bundle
80 Pcs./Bundle

CR2X212
Length: 12'
960 Lbs./Bundle
80 Pcs./Bundle

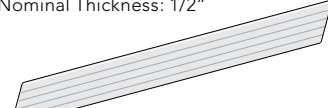

2x4 Rail
Nominal Width: 4"
Nominal Thickness: 2"

CR2X412
Length: 12'
3,350 Lbs./Bundle
96 Pcs./Bundle

CR2X416
Length: 16'
4,450 Lbs./Bundle
96 Pcs./Bundle

1/2x10 Fascia Board
Nominal Width: 10"
Nominal Thickness: 1/2"

CS10F12
Length: 12'
1,550 Lbs./Bundle
48 Pcs./Bundle

Post Cap

CR4X4PCAP
5-1/4" x 5-1/4"
42 Lbs./Ctn.
36 Pcs./Ctn.

4x4 Post Cover

CR4X495
Nominal Width: 4"
Nominal Thickness: 4"
Length: 9-1/2'
1,300 Lbs./Bundle
36 Pcs./Bundle
